

Get the Facts

Using the Degree Progress Report (DPR)

Confused about your current academic track? Rest assured, we have you covered. Using our Degree Progress Report, or DPR system, you can now run a personal progress report of your past, present and ongoing academic career — all on Campus Connection! It's easy, too.

1. After you log in, look to the tabs at the top and click on Advising Center. (Note: You can also access your DPR by clicking on For Students and then Records & Registration.)

2. Look for the Degree Progress Report icon/button. Click on it.

3. Before you run the report...

- You can check off the first box to include your customized My Planner course lists.

Include courses from my planner

- You can check off the "What if" function, which will run the report to a different major of your preference. (Note: This comes in handy for those considering a different track in COE.)

What If

4. Once you've clicked Run Report, the report will load.
5. The report will show your major course requirements in boxes. If you've completed a course, the box will be green. If you have courses in progress, the box will be yellow. For incompleting requirements, the boxes should be red. Clicking on the box will show additional requirement and course details
6. If you click on the blue + at the top right hand corner, a drop menu will reveal more information, like your address, your current academic plan, your advisor, and other information.
7. If you want a physical copy of the report, you can click on Print Version in the top right hand corner. A bubble will pop up asking whether you'd like just the report, just your unused courses, or both. Another window (or tab) will open up with your report in pdf format for you to print or save to your computer.

Still have questions? Please email your advisor.
