**Announcements**

**GETTING READY FOR THE RETURN TO CLASSES**

We are SO excited to welcome our students back to campus beginning with the first day of classes on **Wednesday, September 7th**.

Over the next week or so, it is a good idea to review your schedule and confirm your class selections. If you have any questions or need to make any changes, please reach out to your COE advisor. There have been some advising changes over the summer so you can find your advisor by looking for your major/program on the attached PDF or by visiting the [College of Education website](#).

**ENDORSEMENT FOR SUPERVISION**

DePaul is offering a supervisory Endorsement at the graduate level for teachers in special education, speech language or school support personnel with an Illinois Professional Educator License (PEL). Completion of three course sequence will lead to the Illinois Supervisory Endorsement and allow teachers to supervise teachers in their specialty area and provide instructional coaching and professional development. Coursework completed for the supervisory endorsement may apply toward the principal endorsement.

**EXTENSION OF WAIVERS/EXCEPTIONS UNDER A PUBLIC HEALTH EMERGENCY**

On June 24, 2022, Governor JB Pritzker issued and signed a [Gubernatorial Disaster Proclamation](#), which will remain in effect beyond June 30, 2022.

In accordance with Section 25.1015 of Part 25 of the Illinois Administrative Code, due to this disaster proclamation, the edTPA licensure requirement will now be waived during the spring 2023 academic term. The earliest it could be required again is during the fall 2023 term. If the Governor extends the public health emergency past December 31, 2022, the requirement will continue to be waived during the Fall 2023 term.

Relatedly, content tests will continue to be required at the time of licensure, rather than prior to student teaching. However, based on the most recent proclamation, beginning fall 2023 students must pass the content area test prior to student teaching unless the order is once again extended.

We encourage you to reference this [chart](#) for further detail.
